

AUTHOR INDEX TO VOLUME 11

- Al'pert, Ya. L., Letter to the Editor — 283
 Akhmanov, S. A. and R. V. Khokhlov, New Developments in Non-linear Optics — 394
 Akhmanov, S. A., F. V. Bunkin, V. G. Veselago, L. I. Gudzenko, Yu. A. Kravtsov, M. L. Levin, I. L. Fabelinskii, and R. V. Khokhlov, Sergei Mikhailovich Rytov (In Honor of his 60th Birthday) — 919
 Aleksandrov, A. P., L. A. Artsimovich, E. K. Zavolskii, and Yu. M. Kagan, Isaak Konstantinovich Kikoin — 277
 Alekseevskii, N. E., New Superconductors — 403
 Al'tshuler, L. V. and A. A. Bakanova, Electronic Structure and Compressibility of Metals at High Pressures — 678
 Ambartsumyan, V. A., Present Status of the Natural Sciences and Philosophy — 609
 Amstislavskii, Ya. E., Lecture Demonstration of Equal-inclination Interference Fringes — 768
 Andronikashvili, É. L., Georgii Evgen'evich Chikovani (Obituary) — 780
 Anisovich, V. V., Nonconservation of CP Parity in $K \rightarrow 3\pi$ Decay — 489
 Anisovich, V. V., Experimental Data on $K \rightarrow 3\pi$ Decays — 523
 Arbuzov, B. A., Models for Violation of CP Invariance — 493
 Artsimovich, L. A. (see Aleksandrov, A. P.) — 277
 Artsimovich, L. A., A. B. Migdal, V. P. Dzelepov, and G. M. Garibyan, Artem Isaakovich Alikhan'yan — 455
 Aubert, A., K^0 Three Body Decays — 482
 Baglin, C., Search for C-violation in η^0 Meson Decays — 593
 Baĭbulatov, F. Kh., Several Demonstrations of the Doppler Effect and Interference in the Centimeter Radio Band — 769
 Bakanova, A. A., (see Al'tshuler, L. V.) — 678
 Baldin, A. M., A. A. Komar, and E. L. Feinberg, Moisei Aleksandrovich Markov — 453
 Baranskii, K. N., Demonstration with Conducting Gyroscope in a Magnetic Field — 271
 Baranskii, K. N., Demonstrations with Magnetized Gyroscopes — 603
 Barbashov, B. M., Dmitrii Ivanovich Blokhintsev — 139
 Barit, I. Ya., L. E. Lazareva, E. L. Feinberg, and F. L. Shapiro, Il'ya Mikhailovich Frank (in Honor of his Sixtieth Birthday) — 782
 Basov, N. G. and V. S. Letokhov, Optical Frequency Standards — 855
 Beigman, I. L., L. A. Vainshtein, and R. A. Syunyaev, Dielectric Recombination — 411
 Belov, K. P., and E. P. Svirina, The Hall Effect in Ferrites — 620
 Belyaev, S. T., V. A. Sidorov, and B. V. Chirikov, Gersh Itskovich Budker (In Honor of his 50th Birthday) — 916
 Berg, A. I., B. A. Vvedenskii, D. V. Zernov, Yu. B. Kobzarev, and A. A. Pistol'kors, Vladimir Aleksandrovich Kotelnikov (In Honor of his Sixtieth Birthday) — 778
 Bilen'kii, S. M., L. I. Lapidus, and R. M. Ryndin, Polarization Experiments Aimed at Verifying T- and CPT-invariance in Nucleon-nucleon and Nucleon-antinucleon Scattering — 512
 Blokhintsev, D. I., Interaction of a Microsystem with a Measuring Instrument — 320
 Bogolyubov, N. N., V. L. Bonch-Bruевич, D. N. Zubarev, B. V. Medvedev, G. V. Skrotskii, Yu. A. Tserkovnikov, et al., Sergei Vladimirovich Tyablikov — 606
 Bolotovskii, B. M. (see Voskresenskii, G. V.) — 143
 Bonch-Bruевич, V. L. (see Bogolyubov, N. N.) — 606
 Bunkin, F. V. (see Akhmanov, S. A.) — 919
 Chirikov, B. V. (see Belyaev, S. T.) — 916
 Demikhovskii, V. Ya. (see Tavger, B. A.) — 644
 Drabovich, K. N., Resonance Interaction of Short Light Pulses with Matter — 534
 Drukarev, G. F. (see Veselov, M. G.) — 921
 Dzelepov, V. P. (see Artsimovich, L. A.) — 455
 Erozhinskii, B. G., Check of the V-A Variant in β Decay of Nuclei — 531
 Esel'son, B. N., and V. N. Zozulya, Oxygen Liquefier for Demonstrations — 272
 Fabelinskii, I. L. (see Akhmanov, S. A.) — 919
 Fainberg, V. Ya., Theoretical Foundations of the CPT Theorem — 506
 Fal'kovskii, L. A., Physical Properties of Bismuth — 1
 Fedorova, E. O. (see Shestov, N. S.) — 904
 Feinberg, E. L. (see Baldin, A. M.) — 453
 Feinberg, E. L. (see Barit, I. Ya.) — 782
 Filimonov, S. I. (see Kapitza, P. L.) — 299
 Filippov, A. T., Weak Radiative Decays — 526
 Flerov, G. N., Prospects of Synthesis of New Isotopes and Elements — 294
 Frankfurt, L. L. (see Levin, E. M.) — 106

ANALYTIC SUBJECT INDEX TO VOLUME 11

- Acoustics
 Astrophysics
 Atomic Nucleus
 Classical Electrodynamics
 Cosmic Rays
 Cosmology
 Crystalline State of Matter
 Dielectrics
 Electron Theory of Metals
 Elementary Particles
 General Theoretical Problems of Physics
 Geophysics
 High Pressures
 History of Physics
 Liquid Helium
 Low Temperature Physics
 Magnetic Resonance
 Magnetism
 Metal Physics
 Molecular Physics
- Acoustics
 Lecture Demonstrations of Acoustic Phase Zone Plates.
 B. Sh. Perkal'skii and V. L. Larin - 771
- Astrophysics (see also Physics of Planetary System and
 Interplanetary Space; Plasma Physics)
 Discovery of Pulsed Sources of Cosmic Radio Emission
 and Strictly Periodic Variation of the Flux. I. S.
 Shklovskii - 435
- Dielectronic Recombination. I. L. Beigman, L. A.
 Vainshtein, and R. A. Syunyaev - 411
- Atomic Nucleus (see also Nuclear Reactions)
 Prospects of Synthesis of New Isotopes and Elements.
 G. N. Flerov - 294
- Parity-nonconserving Nuclear Forces. I. S. Shapiro -
 582
- Classical Electrodynamics
 Synchrotron Radiation and its Reabsorption. V. L.
 Ginzburg, V. N. Saznov, and S. I. Syrovatskii - 34
- Cosmic Rays (see also Elementary Particles)
 Interaction of Cosmic Muons of High Energy. I. L.
 Rozental' - 49
- Cosmology (see also Elementary Particles; General
 Theoretical Problems of Physics)
 The Cosmological Constant and the Theory of Element-
 ary Particles. Ya. B. Zel'dovich - 381
- Crystalline State of Matter (see also Solid State)
 Electric Effects Associated with Plastic Deformation
 of Ionic Crystals. A. A. Urusovskaya - 631
- Dielectrics
 Optical Study of the Characteristics of Shock-com-
 pressed Dielectrics. S. B. Kormer - 229
- Electron Theory of Metals (see also Statistical Physics;
 Magnetic Resonance)
 Magnetic Surface Levels. M. S. Khaikin - 785

- Vladimir Aleksandrovich Fock (In Honor of his 70th Birthday) M. G. Veselov, G. F. Drukarev, and Yu. V. Novozhilov — 921
- Philosophical and Methodological Problems of Physics**
Interaction of a Microsystem with a Measuring Instrument. D. I. Blokhintsev — 320
- Present Status of the Natural Sciences and Philosophy. V. A. Ambartsumyan — 609
- Physics of Planetary System and Interplanetary Space** (see also **Upper Atmosphere; Astrophysics**)
Dielectronic Recombination. I. L. Beĭgman, L. A. Vainshtein, and R. A. Syunyaev — 411
- Radioastronomical Investigations of the Inhomogeneous Structure of the Near-solar Plasma. N. A. Lotova — 424
- Radiation Measurements in Space. L. S. Gorn and B. I. Khazanov — 437
- Plasma Physics** (see also **Physics of Planetary System and Interplanetary Space; Astrophysics**)
Striations. A. V. Nedospasov — 174
- Ionization Waves (Striations) in a Discharge Plasma. L. Pekarek — 188
- Landau Damping and Echo in a Plasma. B. B. Kadomtsev — 328
- Dielectronic Recombination. I. L. Beĭgman, L. A. Vainshtein, and R. A. Syunyaev — 411
- Kinetic Theory of Drift-dissipative Instabilities of a Plasma. A. A. Rukhadze and V. P. Silin — 659
- Quantum Electrodynamics**
Limits of Quantum Electrodynamics and Accuracy of Global Constants. Ya. A. Smorodinskiĭ — 130
- On The Photon Mass. I. Yu. Kobzarev and L. B. Okun' — 338
- Quantum Electronics and Optics**
Lasers Based on Solutions of Organic Dyes. B. I. Stepanov and A. N. Rubinov — 304
- New Developments in Non-linear Optics. S. A. Akhmanov and R. V. Khokhlov — 394
- Optical Frequency Standards. N. G. Basov and V. S. Letkhov — 855
- Quantum Field Theory** (see also **Elementary Particles; Quantum Mechanics**)
Problems Related to the Violation of CP Invariance. L. B. Okun' — 462
- Theoretical Foundations of the CPT Theorem. V. Ya. Fainberg — 506
- Quantum Mechanics** (see also **History of Physics; Quantum Field Theory**)
Interaction of a Microsystem with a Measuring Instrument. D. I. Blokhintsev — 320
- Radioastronomy**
Discovery of Pulsed Sources of Cosmic Radio Emission with Strictly Periodic Variation of the Flux. I. S. Shklovskii — 435
- Radioastronomical Investigations of the Inhomogeneous Structure of the Near-solar Plasma. N. A. Lotova — 424
- Scientific Organizations**
Fiftieth Anniversary of the A. F. Ioffe Physicotechnical Institute, USSR Academy of Sciences (Leningrad). V. Ya. Frenkel' — 831
- Semiconductors**
Quantum Theory of Thermomagnetic Phenomena in Metals and Semiconductors. P. S. Zyrzanov and G. I. Guseva — 538
- Physical Phenomena in Semiconductors with Negative Differential Conductivity. A. F. Volkov and Sh. M. Kogan — 881
- Solid State** (see also **Metal Physics, Crystalline State of Matter; Magnetic Resonance; Statistical Physics; Electron Theory of Metals**)
Second Sound in Solids. L. P. Pitaevskii — 342
- The Hall Effect in Ferrites. K. P. Belov and E. P. Svirina — 620
- Electric Effects Associated with Plastic Deformation of Ionic Crystals. A. A. Urusovskaya — 631
- Magnetic Surface Levels. M. S. Khaĭkin — 785
- Melting at High Pressures. S. M. Stishov — 816
- Statistical Physics** (see also **History of Physics**)
Similarity Hypothesis in the Theory of Phase Transitions. V. L. Pokrovskii — 66
- Second Sound in Solids. L. P. Pitaevskii — 342
- Teaching of Physics**
Observation of Sommerfeld Diffraction from a Specularly Reflecting Half-plane. K. S. Vul'fson and L. P. Kovrigin — 132
- Demonstration of the Law of Conservation of Angular Momentum. G. I. Kataev — 133
- Simple Plasmatron for Lecture Demonstrations. V. E. Koreshechuk, S. P. Polyakov, and V. I. Tverdokhlebov — 133
- Demonstration with Conducting Gyroscope in a Magnetic Field. K. N. Baranskiĭ — 271
- Oxygen Liquifier for Demonstrations. B. N. Esel'son and V. N. Zozulya — 272
- Certain New Demonstrations for the Physics Course. A. N. Kozlova — 274
- Influence of Motion of the Medium on the Phase Difference between the Oscillations of a Sound Source and a Sound Receiver. B. J. Robinson — 275
- Demonstration of the Malus Law — V. A. Trofimov and Yu. V. Rublev — 276
- Demonstration with Magnetized Gyroscope. K. N. Baranskiĭ — 603
- Demonstration of Michelson Interferometer Operating with 3-cm Electromagnetic Waves. N. N. Malov and A. N. Kozlova — 604
- Lecture Demonstration of Equal-inclination Interference Fringes. Ya. E. Amstislavskii — 768
- Several Demonstrations of the Doppler Effect and Interference in the Centimeter Radio Band. F. Kh. Balbulatov — 769
- Lecture Demonstrations of Acoustic Phase Zone Plates. B. Sh. Perkal'skis and V. L. Larin — 771
- Thin Films**
Mechanical Properties of Metallic Films. L. S. Palatnik and A. I. Il'inskiĭ — 564
- Quantum Size Effects in Semiconducting and Semi-

metallic Films. B. A. Tavger and V. Ya. Demikhovskii
— 644
Upper Atmosphere (see also Physics of Planetary System and Interplanetary Space; Geophysics)
Letter to the Editor. Ya. L. Al'pert — 283
Optical Investigations of Atmospheric Aerosol. G. V.

Rozenberg — 353
Radiation Measurements in Space. L. S. Gorn and B. I. Khazanov — 437
Use of Physics Methods in Other Sciences
Use of Nuclear Physics in Related Fields of Science and National Economy. A. I. Lelpunskii — 289
